

Viacheslav Stupak

Head of Design / UI/UX Team Lead / Design Ops

Experience & areas of impact

Aug 2022 – July 2025

UI/UX Team Lead — Trinetix, Kyiv

Managed end-to-end design work on enterprise projects for a Big Four client.

- Ran discovery sessions: stakeholder interviews, competitor analysis, and UX research; defined user flows and user stories; analyzed requirements and aligned them with business goals and user needs.
- Managed design delivery: wireframes, prototypes, usability testing, accessibility reviews, and developer-ready handoff
- Ensured continuous alignment with PMs, BAs, and engineers throughout the design and development lifecycle
- Conducted performance reviews and mentoring; created personal development plans for team members
- Built internal standards: accessibility audit guide, design documentation templates, and skill matrix
- Contributed to cross-team workshops and knowledge-sharing initiatives

April 2019 – July 2022

Senior UX/UI Designer / Manager — Andersen, Kyiv

- Led UI/UX work on multiple client projects using a user-centered design approach
- Conducted UX research, stakeholder/user interviews, IA audits, CJMs, and prototyping
- Participated in pre-sales and estimation processes
- Created design systems and UI-kits
- Managed resources across the design department and supported expert activities
- Mentored junior designers and interviewed candidates for design roles

2016 – 2019

UI/UX & Graphic Designer — Zanzarra, Lviv

- Designed websites and mobile apps from concept to delivery
- Managed brand identity, marketing visuals, ad materials
- Worked on content-driven website development (CMS)
- Took part in project coordination and client communication

I firmly refuse to take part
in any projects connected
with russia — including clients,
funding, or businesses.

This is non-negotiable.
